WORK EXPERIENCE

Web Designer and Full-Stack Developer

Wyn City (Cloud Bay Wyn City Ventures) | January 2022 - Present | Maitama, Abuja, Nigeria

- Architected and deployed a full e-commerce platform on Odoo, customizing the frontend with HTML, CSS, and JavaScript, reducing average page load time by 40% through asset optimization and lazy loading.
- Built and managed a product catalog system with 5,000+ SKUs across 10+ categories, implementing dynamic filtering, variant selection, and SEO-optimized product pages that drove a 60% increase in organic search traffic.
- Implemented a client-side age verification gate, shopping cart, wishlist, and multi-step checkout flow integrated with Odoo's order management, contributing to a 35% improvement in checkout completion rate.
- Engineered a fully responsive, mobile-first UI using Odoo's QWeb templating system, achieving 98% cross-browser compatibility and cutting mobile bounce rate by 25%.
- Handled SEO technical setup including meta tags, URL slug optimization, and sitemap configuration, securing first-page Google rankings for 10+ high-competition local keywords within 3 months.
- Managed a live 24/7 production environment handling 500+ monthly product interactions, maintaining 99.9% uptime with zero critical incidents over 3+ years of active management.

Front-End Developer

IXNote Services Nig. Ltd. | March 2020 - December 2021 | Plateau State, Nigeria

- Built and maintained a library of 30+ reusable React components, reducing UI development time by 40% across 5+ client projects.
- Conducted code reviews that enforced team standards across a 4-person dev team, reducing post-deployment bug reports by 35% over a 6-month period.

- Developed and integrated database structures for 3+ web applications, writing optimized queries that improved average data retrieval speed by 30%.
- Collaborated with design and content teams to deliver 10+ web pages per sprint, consistently meeting deadlines and maintaining visual consistency across all client-facing platforms.
- Contributed across the full SDLC from requirements to deployment, helping ship 8+ production features with zero rollbacks in the final 6 months of tenure.

Full-Stack Developer

Kentaz Emporium | 2026 – Present | Remote · Abuja, Nigeria

- Designed a full-stack luxury e-commerce and booking platform (3 apps: frontend, backend, admin) with 50+ API routes and 20+ Mongoose models — kentazemporium.com.
- Built a multi-service booking system with therapist profiles, calendar slot pickers, and Google Calendar integration. Delivered PWA admin panel with POS, Recharts analytics, and Paystack payments.
- Deployed and currently managing all 3 apps on Vercel with ongoing feature updates and performance monitoring.

Full-Stack Developer

DrinksHarbour | 2022 – Present | Remote

- Architected a multi-tenant SaaS platform with subdomain-based tenant isolation, a centralized product catalog as single source of truth, and tenant-specific SubProducts with individual pricing, stock, and variants.
- Built beverage taxonomy covering 200+ types with ABV, volume, origin, flavor notes, shelf life, and barcode fields. Implemented age verification, flash sales, scheduled price changes, and coupon/promo systems.
- Implemented flexible revenue models (markup and commission-based), Stripe subscription tiers (free trial, starter, pro, enterprise), and full vendor management: pricelists, POs, bills, returns, inventory, and 3-way matching.
- Integrated AI layer: semantic product search (sentence-transformers), personalized recommendations, review sentiment analysis, and Cloudinary AI auto-tagging. Deployed on Vercel and MongoDB Atlas.

Full-Stack Developer

Ball & Boujee | 2025 – Present | Remote · Abuja, Nigeria

- Built a premium sports and lifestyle e-commerce platform with dual payment processing (Stripe and Paystack), gift cards, discount codes, and offline-capable POS — ballandboujee.com.
- Implemented event management with RSVP, gallery, booking system, wishlist, reviews, and newsletter. Deployed on Vercel, actively managed.

Full-Stack Developer

Swift Professional Solutions Ltd. | 2026 – Present | Remote · Abuja, Nigeria

- Delivered a 3-app full-stack platform for a Nigerian ICT firm: Next.js 14 frontend, Node.js/Express REST API (10+ endpoints, JWT auth), and a Next.js admin CMS — swiftpsl.com.
- Implemented SEO, NDPA-compliant cookie consent, dark/light mode, WhatsApp integration, and rate limiting. All 3 apps deployed on Vercel via CI/CD.

Full-Stack Developer

Christy's Beauty Spa | 2026 – Present | Remote · Abuja, Nigeria

- Built a multi-step spa booking wizard supporting 48+ services across 7 categories, with real-time pricing, 30% deposit logic, and 3 payment methods (card, bank transfer, USSD) — christy-empire.vercel.app.
- Deployed and currently hosting on Vercel with continuous deployment via GitHub, managing ongoing UI updates for the live client site.
